607-701 Brazilian
STC's.pdf

Good morning everyone,

Please see attached approvals validating our D350-607 and D130-701 basket installations in Brazil. We pursued the Brazilian validation at the request of someone within the Dart/DHS organization, but in the midst of Eagle Single certification, I haven't got a clue who it was (I'm thinking it was Martin or Chantelle or Jason Loader, but I can't confirm this). I just hope that somewhere, somehow, there is another satisfied Dart customer out there and that they will get a copy of this approval. I assume we didn't just do this for the fun of it.

St. of
Kim,

I have reviewed the attached approvals and concur that they can be released into the Blue File. As you have probably already figured out, the Brazilians decided to issue 4 approvals to cover off our 1 approval for these products (Why keep something simple when you can make it far more complicated?). Please ensure that in addition to these 4 approvals, a copy of DSI 9370 Rev. A is added to the Blue File. DSI 9370 specifies that Spanish placards are required on the lid of the basket when they are operated in Brazil. We should probably look at getting some of these Spanish placards in stock.

David,

We just got a fax for the Brazilian STC's for the D350-607, D130-701 Baskets. Can you please look them over.
